Art Unit: 1714

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 7-15, 18-21, 23-35, 37, 38, 40-47 are rejected under 35

U.S.C. 102(b) as being anticipated by Norman et al.

Norman et al disclose lubricant compositions comprising base oils, succinimides meeting the limitations of the rejected claims, phosphoric esters and amine salts thereof meeting the limitations of the rejected claims and one or more borated dispersants. This reference incorporates the teachings of Le Suer, US 3,254,025, which teaches borated dispersants for lubricants comprising boron in amounts such as claimed instantly. The relative amounts of the various components are taught as at least overlapping those claimed instantly.

Therefore the reference anticipates the rejected claims.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 36 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 36 requires the fluid of claim 1 to be free of any other friction modifier other than succinimide. Since claim 1 requires an antiwear component, which component is seen as a friction modifier, this limitation is seen as rendering the claim indefinite.

Claims 16, 17, 22 and 39 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
